Point of care renal ultrasonography for the busy nephrologist: A pictorial review

Abhilash Koratala, Deepti Bhattacharya, Amir Kazory

Abstract

The application of bedside ultrasonography in routine clinical practice has dramatically evolved over the last few decades and will likely continue to grow as technological advances lead to enhanced portability and affordability of the equipment. Despite mounting interest, most nephrology fellowship training programs do not offer formal training in renal ultrasonography and there is inertia among practicing nephrologists to
