

Title: Clinical efficiency of Transarterial chemoembolization /Transarterial embolization (TACE/TAE) + iodine 125 implantation combined with Transjugular Intrahepatic Portosystemic Shunt (TIPS) to treat the tumor emboli of portal venous trunk and their complications

Number: 44697

This letter is to confirm that I did the biostatistics by myself, and I have received a whole systemic statistical training. Fu-quan Liu, the corresponding author, has reviewed and revised the Statistical section.

Please contact me if you have any queries.

Sincerely,

Yue Zhang
