Name of Journal: *World Journal of Dearmatology*

ESPS Manuscript NO: 4577

We sincerely appreciated the comments from the reviewers.

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

- (1) Q: You should indicate the author(s) name(s) who performed the studies instead of “people” Page 9, section 8: What is the relationship among U-TAA and TA-90, and explain it.

A: Thank you very much. We have indicated “The study of Kelley et al.” instead of “some paper” in Page 8, Line 8 of section 8. In addition, we have added “It comprises multiple subunits, including an immunogenic 90-kD subunit designated TA-90” to explain the relationship among U-TAA and TA-90 in Page 8, Line 5 of section 8.

- (2) Q: You should do a minor revision of the language to facilitate reading.

A: Thank you for the suggestion. We have asked a professional English checker to check the manuscript, and made the improvement of language.

- (3) Q: All the authors' work should be given in this section.

A: We have explained the author contributions clearly on page 1.

- (4) Q: Please write a summary of less than 100 words to outline the most innovative and important arguments and core contents in your paper to attract readers.

A: We wrote a core tip of less than 100 words according to this request.

- (5) We rewrote the abstract which was about 211-word.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Dearmatology*.

Sincerely yours,
