## Prophylactic clipping and post-polypectomy bleeding: a ...

[www.ncbi.nlm.nih.gov](#) › ... › [Ann Gastroenterol](#) › v.29(4); Oct-Dec 2016

Jul 28, 2016 · In 2003, Shioji et al evaluated 413 post-polypectomy ulcers treated by the endoscopic mucosal resection technique, with a mean polyp size of 7.8 mm, and found no decrease in delayed bleeding after polypectomy with prophylactic clip placement .

## Effect of prophylactic clipping in colorectal endoscopic ...

<https://journals.sagepub.com/doi/full/10.1177/2050640616687837>

The current meta-analysis revealed no significant effect of prophylactic clipping for preventing delayed bleeding after the endoscopic resection of colorectal tumors. In this meta-analysis, the efficacy of prophylactic clipping was evaluated with respect to tumor size (>20 mm) or pedunculated type.

## Postpolypectomy prophylactic clip closure for the ...

<https://onlinelibrary.wiley.com/doi/full/10.1002/jgh3.12047>

Mar 25, 2018 · Delayed postpolypectomy bleeding (DPPB) is the most common complication of colonoscopic polypectomy. Prophylactic clipping after an uncomplicated polypectomy is increasingly used, but it is unclear if this results in the prevention of DPPB. This study aimed to review prophylactic clip use and its effect on the rates of DPPB.
