

Reviewer #1:

In the title, please change "hydatidosis" to "Hydatid cyst". **DONE**

In the Abstract and also in the Result section, please remove the word "Only" before the 9 cases , as there might be some other cases of colonic hydatid cyst published in other languages which might be overlooked by the authors. **DONE**

Figure 1 is not informative and can be omitted, as the contained data already presented in the materials and methods, as text. **ERASED DONE**

Authors are requested to provide data regarding the pathological findings of the cases as well as data pertaining the para clinical values and also chemotherapy, if any, of the cases. **DONE. INCLUDED A NEW COLUMN on TABLE 3**

Reviewer #2:

Thank you for your comments

It would be very nice if authors could add some figures of pathology or imaging features o personal (or under permission) case of colon hydatidosis. **DONE.**

Own case with disseminated hydatidosis with two cyst contacting colon without clinical implications
