SPECIFIC COMMENTS TO AUTHORS

well written manuscript. i have some suggestions. 1- how is the follow up of patient? 2- "congenital hepatobiliary anomaly may coexist with thyroid and breast anomalies"

SPECIFIC COMMENTS TO AUTHORS

This is a very interesting case report, which is impressively descriptive with appropriate considerations. The text is well written. The pictures are clear and above all,

cholangiopancreatography: a case report, is well written case report. From provided images and description, it is difficult to believe that dorsal duct was communicating with common bile duct. It is also unclear how the diagnosis of pancreas divisum was made. Did the authors detect a part of ventral duct? Clearer images should be provided to convince the readers.
