Revision: "Clinical Characteristics and Surgical Treatment of Schwannomas of the Esophagus and Stomach: A Case Series and Systematic Review."

Jin-Lei Wang
Science Editor, Editorial Office

Dear Editor:

We would like to thank the editor and reviewers for their helpful comments and suggestions. We have addressed each of the comments and have amended the manuscript accordingly. Responses to comments are noted and the appropriate changes have been made to the manuscript. We would be glad to address any additional comments or concerns.

Thank you for your continued consideration of the manuscript.

Sincerely,

The authors.

Review 00041858

Thanks you for your comments, we consider that gastrointestinal Schwannomas are lesion poorly studied in the literature, the reason for reviewing the available information so far.

Review 03721686

Thanks for your observation, we have changed some language discrepancies and review the citations.

Related Images were added.

Review 03478911

Thank you for your comments, we have made some changes in the introduction to stablish an objective purpose for the review.
