SPECIFIC COMMENTS TO AUTHORS

The authors describe a unique case of polyposis of an ALK+ ALCL. This is an impressive manuscript and I enjoyed reading it. It is precise, contains good illustrations and remains good on the point. I would suggest that the authors extend the discussion of the

SPECIFIC COMMENTS TO AUTHORS

In this paper, the authors presented a rare type of manifestation of ALK-positive anaplastic large cell lymphoma. The paper is well written but some points need to be addressed: 1. All of the abbreviations should be explained in brackets. 2. The picture of CT

scan should be replaced. 3. Ki67 index should be added, to complete the immunoprofile.
4. Discussion - It would be useful to make a synthesis of literature in a tabel. As few cases of such gastrointestinal lymphomas were published, it is mandatory to insert all clinicopathological, demographic, immunohistochemical and molecular data in a tabel, to help readers in the diagnosis of future cases.
