## Plasmablastic Lymphoma presenting as small intestinal ...

[www.ncbi.nlm.nih.gov](http://www.ncbi.nlm.nih.gov) › ... › v. 14(10); 2012 Oct

Plasmablastic lymphoma (PBL) is a relatively new entity, classified by WHO as a rare variant of diffuse large B cell lymphoma. The present case report introduces a 17 year old girl with chronic diarrhea, abdominal pain, intra-abdominal venous thromboses, ascites, mesenteric lymphadenopathies and ...

ALK-negative **anaplastic large cell lymphoma** (ALCL, ALK-) is a CD30+ T-cell neoplasm composed of **large** lymphoid cells with abundant cytoplasm and pleomorphic nuclei that lacks expression of ALK protein. We describe **a case** of ALCL, ALK- with primary involvement of the rectum in a 37 year old man, where the original diagnosis was established based on a colonoscopic biopsy.
