survival outcomes in female breast cancer patients by systematic review and meta-analysis of randomized controlled trials. The title is interesting and suitable for the Journal, however, I have some minor comments about the manuscript. 1. Page 1, "T"axanes or "t"axanes shall be consistent, and line 3 from the bottom, "Breast" shall correct as "breast". 2. Page 2, line 14, ..."pathological complete response (pCR)" shall correct as "...pathological complete response (pCR). 3. Page 3, line 13, ...abbreviation "DCIS" shall be with its full name. 4. Page 6, line 6, ..."outcomeswas" shall correct as "outcomes was".
