## SPECIFIC COMMENTS TO AUTHORS

The authors present a very rare and interesting case of congenital dyserythropoietic anemia in a neonate. The diagnosis was supported by liver biopsy finding, something first reported in the neonatal period. Also, a novel genetic mutation has been described.

Just 2 minor comments: 1. Replace emergent caesarean section by emergency casarean section (case summary and birth history) 2. Please explain every abbreviation before use i.e OFC, DOL, PRBC, FFP, NICU, PPHN, GGT, HSM 3. Replace d-dimer by D-dimers (page 5 of the text) After these minor revisions I suggest that the paper is suitable for publication in the World Journal of Hepatology
