**SPECIFIC COMMENTS TO AUTHORS**

Dear Editor thank you that you asked me to review the manuscript; my suggestions to a the author are the followings. Firstly, systematic search of the literature to retrieve if similar cases have been published so far should be done. Thereafter, the searched

databases and the detected relevant articles should be mentioned. Secondly, a mini review should be written and the present study should be compared with the already published studies in the international medical literature. It is not mentioned if during the first operation the surgeon performed meticulous inspections of all abdominal quadrants in order to exclude any metastases. It is mentioned that was done staging CT chest. Why not staging CT, chest abdomen and pelvis?
