SPECIFIC COMMENTS TO AUTHORS

well written manuscript. i have some suggesitons. 1-"hemorroidal disease and the other perianal diseases must be classified according to difficulty of operation" (Turkiye Klinikleri J Gen Surg-Special Topics. 2018;11(2):112-4) and (Prague Medical Report / Vol. 117 (2016) No. 4, p. 145-152) I suggest both of these uptodate studies for the references.

SPECIFIC COMMENTS TO AUTHORS

Comments nicely written editorial which cuts across the traditional concepts of Internal and external hemorrhoids on basis of evidence. The language used is excellent and is very well supported by references. In my opinion ,the editorial needs to be accepted without any revisions.
