

# Biostatistics statement

19 March 2019

To whom it may concern

This letter to confirm that I have read the manuscript entitled “**Multiplex gene expression profile in inflamed mucosa of surgical patients with Crohn’s disease ileal localization**” and that in my opinion the statistical methods declared are appropriate for this type of study.

Please contact me if you have any queries.

Sincerely,

Dr Michele Tanturli, PhD

Master in Biostatistics for Clinical Research and Scientific Publication;

attending the specialization course in Health Statistics and Biometrics, department Public health and infectious diseases, Sapienza Università di Roma, 00185 Roma.
