**SPECIFIC COMMENTS TO AUTHORS**

Very interesting case report about the single coronary artery, a very rare congenital anomaly of the coronary artery. The case is described in detail. The figures of the case is very good. The introduction should be enlarged. The discussion is very long, it can be shorten. The reference list is updated. Some minor language polishing should be corrected.

Answer: the discussion was shortened, Language was polished by using language editing services.

**SPECIFIC COMMENTS TO AUTHORS**

This manuscript reported a case with single coronary artery , combined with severe ostial lesions of left main coronary artery and significant stenosis of left anterior descending artery, was successfully treated with percutaneous coronary intervention. The manuscript is well written. The case is very rare, the clinical value is important. Case presentation is very detail. The discussion is too long, please revise. Spelling mistake should be corrected.

Answer: The introduction of the manuscript was enlarged and the discussion was shortened. Language was polished by using language editing services.
