Proton pump inhibitors use increases hepatic encephalopathy risk: A systematic review and meta-analysis

Ma YJ *et al.* PPI use and hepatic encephalopathy: A meta-analysis

Yun-Jie Ma, Zong-Xun Cao, Yong Li, Shun-Yi Feng

## 6 Abstract

### BACKGROUND

Several studies have been conducted to explore the association between the use of proton pump inhibitors (PPIs) and hepatic encephalopathy (HE) risk in patients with liver cirrhosis. However, their results were controversial.

### AIM

To perform a systematic review and meta-analysis aimed to evaluate the HE risk among PPI users.

### METHODS

A systematic search on PubMed, Web of Science, EMBase, and ScienceDirect
