

May 13, 2019

Dear Editor,

Please find enclosed the revised manuscript in Word format (file name:  
47714\_revised\_manuscript.doc)

**Title:** Role of Hepatocyte Nuclear Factor 4-Alpha (HNF4 $\alpha$ ) in Gastrointestinal and Liver Diseases

**Author:** Dustin E. Bosch, Matthew M. Yeh, Sayed S. Daoud

Name of Journal: World Journal of Gastroenterology

**ESPS Manuscript No:** 47714

**Manuscript Type:** Review

Thank you very much for your kind e-mail, which gave us the possibility to revise our manuscript. We emended the paper according to the reviewers' comments. We hope this revision will make our manuscript better to be accepted in your journal.

The manuscript has been improved according to the suggestions of reviewers, as well as the format has been updated. Changes are marked with vertical lines (red) in the right margin, and the updated references have highlighted.

We hope that the revised manuscript is now acceptable for publication in the World Journal of Gastroenterology.

Thank you very much.

**Reply to editorial comments:**

- 1) A Short running title should be no more than 6 words.

Answer: This has been done accordingly.

- 2) Telephone and fax numbers should consist of +, country number, distinct number and telephone or fax number

Answer: This has been done accordingly.

- 3) Please offer the audio core tip.

Answer: We have now registered the Audio Core tip and this has been uploaded with the revised manuscript.

- 4) For figure legends, please don't include any symbols in the manuscript, no abbreviations in the title of the figure, and figure file names should identify the figure and panel.

Answer: This has been done accordingly. See figure legends

- 5) Please provide the decomposable figure of figures, whose parts are all movable and editable, organize them into a PowerPoint file, and submit as "Manuscript No. – Figures.ppt" on the system.

Answer: This has been done accordingly.

## **Reply to reviewers' comments**

**Reviewer #1:** Your article is very good. Congratulations.

We value these comments, thank you.

**Reviewer #2:** The paper offers an interesting analysis and their innovation and findings are well emphasized. There are some questions:

1. In page 13, "The Prognostic Utility of HNF4a" part should be updated.

Answer: We thank the reviewer for the suggestions. References have been updated (Also see page 9 and 14).

2. Legend of figure 4, the statistical values of the  $*p<0.05$ ,  $**p<0.001$ " proposed by the authors is not clearly explained.

Answer: We thank the reviewer for the this comment. The legend of figure 4 has been revised accordingly (See page 18 and 19).

Thank you for considering the review.

Sincerely yours,

A handwritten signature in black ink, appearing to be 'S. Daoud', enclosed within a large, loopy oval shape.
