

Dear Editors and Reviewers:

Thank you very much for giving us an opportunity to revise our manuscript entitled “*Sinusoidal Obstruction Syndrome: A Systematic Review of Etiologies, Clinical Symptoms and MRI Imaging Features*” (manuscript ID: 47773). The comments are exceptionally valuable, inspiring, and constructive for our work. We have studied reviewer’s comments carefully and made extensive modification in accordance with the reviewers’ comments which we hope can meet with your approval. Changes made from the previous article file were highlighted in yellow in the revised manuscript.

Below, I will detail how we revised our manuscript (**in bold**) in order to address each of the comment (*in italic*) in the original decision letter.

#### **List of actions:**

- 1、 The grammer errors in our paper have been checked and corrected.
- 2、 The detailed explanations have been added when the abbreviation of Tu san qi was first appeared.
- 3、 Article Highlights section has been re-written according to the guidelines listed
- 4、 Figure 1 has been modified to editable format (Powerpoint) upload as a separate file.

#### **Responses to reviewers:**

##### ***To Reviewer specific comments:***

- 1. Some abbreviations are obscure - Tu san qi (4/13).*

##### **Author’s response:**

We appreciate the reviewer’s comment very much and we have added the detailed explanation of -Tu san qi when the abbreviation was first appeared. (***See Result of***

***Abstract section, Line 2~3 in Page 2)***

*2. In West, SOS were mostly secondary to HSCT..pehaps was.*

**Author's response:**

Thanks for reviewer's advice! It was a minor grammatical error and we have corrected (*See Conclusion of Abstract section, line 1*).

**Responses to editor:**

***To editor's comments:***

*1. Please write the article highlight section according to the guidelines listed below.  
Please don't copy from the main text.*

**Author's response:**

We are very sorry for our incorrect expression in Article Highlights section, and we have re-written the Article Highlight section according to the guideline listed.

*2. We found that the content of the figures cannot be edited by our staff. Authors have to provide the figures as separate electronic files. Please upload the figures in the following vector or bitmap formats so that we will be able to edit them:*

*1) Vector art formats: bw, Illustrator, EPS, WMF, EMF, FreeHand, CorelDraw, Color Map File, PowerPoint, Excel, IFF, etc.*

*2) Bitmap formats: Photoshop, TIFF, GIF, JPEG, etc.*

**Author's response:**

Figure 1 has been modified to editable format (Powerpoint) upload as a separate file.

**Other actions:**

Protocol and registration section has been added and complemented (PROSPERO, registration number: CRD42019127258).

We greatly appreciate for both your help and that of other reviewers'. We have carefully revised our manuscript according to the comments. All authors have read and approved the final revised version. We hope that the revised manuscript can go with your expectation for publication in World journal of clinical cases.

Best regards,

Bin Song
