Improving quality of colonoscopy by adding simethicone to ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC2702112>

Jun 28, 2009 - AIM: To **evaluate** the effectiveness of **simethicone** in enhancing visibility and efficacy **during colonoscopy**. METHODS: A prospective, double-blind, **randomized, placebo-controlled** study was conducted. One hundred and twenty-four patients were allocated to receive 2 doses of sodium phosphate plus 240 mg ...

Addition of Lubiprostone to polyethylene glycol(PEG ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5064954>

Our hypothesis was that administration of LB prior to **bowel preparation** would improve the adequacy of standard PEG **preparation**. Additionally it could reduce the dosage requirement of PEG and improve patient tolerability. Accordingly we conducted this prospective **double blinded randomized placebo controlled trial**.

A randomized placebo-controlled trial of simethicone and ...

<https://onlinelibrary.wiley.com/doi/full/10.1046/j.1365-2036.2002.01322.x>

This is the first prospective, **placebo-controlled**, double-blind **trial** to compare **simethicone** with placebo and a prokinetic agent in patients with functional dyspepsia. **During** the 8-week study period, **simethicone** was significantly better than placebo in improving dyspeptic symptoms.

Use of N-acetylcysteine plus simethicone to improve ...

<https://www.sciencedirect.com/science/article/pii/S0016510717323544>

Simethicone's effectiveness as an anti-foaming agent has been demonstrated in several other **trials**. 16 Also, it has been studied in other scenarios such as **colonoscopy**,16, 17 in the **preparation** for capsule endoscopy in the small **bowel**,18, 19 and in endoscopic ultrasonography where it reduces artifacts and increases the accuracy of the study...
