DATE: December 21, 2017
TO: Eric Osgard, MD
FROM: University of Nevada, Reno Institutional Review Board (IRB)

PROJECT TITLE: [1139179-2] Simethicone pretreatment with low-volume Polyethylene Glycol-3350 and Bisacodyl in an effort to improve bowel wall visualization
REFERENCE #: Biomedical
SUBMISSION TYPE: Response/Follow-Up

ACTION: APPROVED
APPROVAL DATE: December 21, 2017
EXPIRATION DATE: December 21, 2018
REVIEW TYPE: Expedited Review
REVIEW CATEGORY: Expedited review # 1a and 7

The above-referenced protocol was reviewed and approved by the UNR IRB in accordance with the requirements of the Code of Federal Regulations on the Protection of Human Subjects (45 CFR 46 and 21 CFR 50 and 56). This approval is based on assessment that the research met all applicable regulatory criteria. The research must be conducted in accordance with this approved submission. This submission has received Expedited Review based on applicable federal regulations.

Please prepare your continuing review form at least 4 weeks prior to your expiration date using IRBNet. <https://www.irbnet.org>. Our office will send you a courtesy reminder to that effect. Unless renewed, the IRB only has authority under the federal regulations to allow a study to be open 12 months or less. There is no grace period. The study will be closed on the above stated expiration date unless the IRB receives and approves a continuing review report.

Instructions on preparing a modification or submitting your renewal is located on our web site at <http://www.unr.edu/research-integrity/human-research/irbnet>. Call our office if you have any questions or problems with use of IRBNet software.
