Adjuvant/Neoadjuvant Chemoradiation for Gastric and ...

<https://www.cancernetwork.com/gastrointestinal-cancer/adjuvant...> ▾

ABSTRACT: Both **gastric** and **pancreatic cancer** remain leading causes of **cancer death** in the United States and worldwide. While **surgical resection** continues to be required for long-term **cure** of both these neoplasms, 5-year survival rates remain **poor** following **surgery alone**.

Adjuvant vs Neoadjuvant Chemotherapy in Resectable ...

<https://www.cancernetwork.com/lung-cancer/adjuvant-vs-neoadjuvant...> ▾

May 16, 2009 - Besse and Le Chevalier provide us with an excellent and comprehensive review of available literature summarizing the current state of the art relating to both **adjuvant and neoadjuvant** (or induction) chemotherapy in **resectable non-small-cell lung cancer (NSCLC)**. [1] They review the efficacy of **adjuvant and neoadjuvant treatment** in randomized clinical trials (RCTs) that employ

Quality of life after adjuvant intra-arterial chemotherapy ...

<https://onlinelibrary.wiley.com/doi/abs/10.1002/cncr.24809>

Adjuvant therapies for **pancreatic** and **periampullary cancer** reportedly achieve only a marginal survival benefit. In this randomized controlled trial, 120 patients with **resected pancreatic** or **periampullary cancer** received either **adjuvant celiac axis infusion chemotherapy** combined with radiotherapy (CA/RT) or no **adjuvant treatment**.
