### SPECIFIC COMMENTS TO AUTHORS

This is a good report about endoscopic treatment for a bile duct polyp. Could you let me know whether a bile duct polyp can be resected without a duodenal fistula ?

### SPECIFIC COMMENTS TO AUTHORS

The authors reported a case of bile duct polyp successfully treated with endoscopic mucosal resection. Congratulations. Some questions: 1. How to explain the formation of choledochoduodenal fistula? Was there pancreaticobiliary maljunction? 2. The flat polyp seemed too small to the caliber of CBD, that seemed not the reason to cause

choledocholithiasis and choledochoduodenal fistula. 3. How long was the length of biliary-pancreatic common channel? 4. CT and MRI revealed a communication between the common bile duct and the duodenal bulb, and a high-density shadow inside the communication. Suggest the authors present the pictures in the text. 5. The explanation of words in legend should show in the picture with arrow(s).
