JOURNAL EDITOR-IN-CHIEF (ASSOCIATE EDITOR) COMMENTS TO AUTHORS

This a well written minireview of CAC-DRS. Please make the following minor changes to the manuscript. 1. Introduction: Please rephrase the following statements. " Approximately 15.5 million persons \geq 20 years of age in the United States are having CAD as per 2016 Heart Disease and Stroke Statistics update of the American Heart Association (AHA)[2]. Every year nearly same numbers of people undergo diagnostic testing for suspected CAD." to " As per the 2016 Heart Disease and Stroke Statistics update of the American Heart Association (AHA), approximately 15.5 million persons \geq 20 years of age in the United States have CAD and a similar number of individuals undergo diagnostic testing for suspected CVD. 2. Current status of CAC score: please add references to the following statement The prognostic value of CAC score for cardiovascular events and all-cause mortality was confirmed with large prospective studies of different populations and ethnicities. " 3. There are still a few minor grammatical errors in the manuscript. Please review capitalizations and use of commas carefully.
