## Incidence of inflammatory bowel disease by race and ...

<https://journals.sagepub.com/doi/full/10.1177/1756284819827692>

Background:Although inflammatory bowel **disease** (IBD) has been more predominant in white populations, an increasing incidence of IBD in nonwhites has been reported. We sought to evaluate the incidence rates and temporal trends of IBD by race and ethnicity.Methods:The resources of the Rochester Epidemiologic Project were used to identify 814 county residents newly diagnosed with IBD ...

## Incidence of inflammatory bowel disease by race and ...

<https://journals.sagepub.com/doi/full/10.1177/1756284819827692>

The inflammatory bowel **diseases** (IBD), consisting of Crohn's **disease** (CD) and ulcerative colitis (UC), are chronic inflammatory **diseases** and are commonly diagnosed at younger ages with relatively low mortality. 1 The incidence of IBD continues to increase steadily in western countries, and the incidence of IBD in other continents has been rapidly increasing. 2 Consequently, the global ...

## Epidemiology of inflammatory bowel disease: Focus on Asia ...

<https://www.sciencedirect.com/science/article/pii/S152169181400047X>

The **epidemiology** of inflammatory bowel **disease** (IBD) is changing globally. Incidence and prevalence may have stabilized in high-incidence areas such as North America and Europe but they continue to rise in previously low-incidence areas such as Eastern Europe, Asia, and much of the developing world.
