## How to insert hydrogen peroxide in vagina to cure ...

<https://answers.yahoo.com/question/index?qid=20101125204508AA5KET4> ▾

Nov 25, 2010 - But peroxide is naturally produced by the vagina anyway. If you have a discharge and the discharge is caused by an infection, douching could force bacteria up into the cervix or uterus, increasing the chance of PID.

<https://www.healthcaremagic.com/premiumquestions/is-it-safe-to-use-Hydrogen-peroxide...> ▾

Apr 09, 2015 - Please do not use any douche yourself especially as you have copper T inside. It is a source of infection many a times and will cause the infection to spread inside due to IUD. Bubbles will not reach uterus but contamination by bacteria is a potential risk. Rather just clean the area with a vaginal wash twice a day and wear cotton based underwear.

She was discharged with fully recovered state on 10th hospital day, and this may be the first case report of acute chemical colitis by accidental hydrogen peroxide enema in children.

### Vaginal Douching: Evidence for Risks or Benefits to Women ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC2567125>

Vaginal douching may potentially increase the risk of pelvic inflammatory disease by promoting the ascension of lower genital tract infections to the upper genital tract, by changing the vaginal environment to increase susceptibility to reproductive tract infections that precede pelvic inflammatory disease, or by introducing nonpathogenic vaginal bacteria into the typically sterile upper genital tract. The weight of the evidence suggests a causal association of douching and pelvic ...

### Vaginal Infections - from Ronnie Falcão's Midwife Archives

<https://www.gentlebirth.org/archives/vagInfections.html>

Most vaginal infections are in the outer inches of the vagina, anyway, so partial insertion may be just as effective. Comfort is important! Gently and slowly push on the plunger to push the hydrogen peroxide into the vagina, taking between 30 and 60 seconds to do this. DO NOT EXERT TOO MUCH FORCE.

### Vaginal Douching: Evidence for Risks or Benefits to Women ...

<https://academic.oup.com/epirev/article/24/2/109/534985>

Dec 01, 2002 · From the Food and Drug Administration's review of epidemiologic studies on vaginal douching (considered published case-control and cross-sectional studies), a consistent moderate adverse or null effect of douching was noted; the evidence was considered suggestive that douching independently raises the risk of pelvic inflammatory disease, ectopic pregnancy, infertility, and ...

### Antiseptics and disinfectants for the treatment of ...

[europepmc.org/articles/PMC3458956](http://europepmc.org/articles/PMC3458956)

One RCT found that a single vaginal douche with hydrogen peroxide was slightly, though significantly less effective than a single oral dose of metronidazole. Conclusion The use of antiseptics and disinfectants for the treatment of BV has been poorly studied and most studies are somehow methodologically flawed.
