Aggressive plasmablastic lymphoma of the thoracic spine ...

<https://www.sciencedirect.com/science/article/pii/S1529943013019967>

Jul 01, 2014 · Plasmablastic **lymphoma** is a rare aggressive variant of diffuse **large B-cell lymphoma**, the most common subtype of non-Hodgkin **lymphoma** (NHL). Plasmablastic **lymphoma** was initially proposed as a novel entity in 1997 in a series of HIV-positive patients [3] , with the classic presentation of a localized oral lesion **occurring** in men presenting about ...

Sen Yang, Wei-Min Jiang, Hui-Lin Yang

Abstract

BACKGROUND

Anaplastic large cell lymphoma (ALCL) is a type of non-Hodgkin's lymphoma (NHL). ALCL is rare as a bone lesion and in pregnancy.

Anaplastic large cell lymphoma with axial skeletal lesions ...

<https://www.magonlinelibrary.com/doi/10.12968/hmed.2015.76.10.606> ▾

Anaplastic large cell lymphoma is a rare condition, accounting for less than 5% of all cases of non-Hodgkin's **lymphoma** (Kadin and Morris, 1998). Characterized by the presence of **large** pleomorphic lymphocytes expressing the **cell** membrane protein CD30 antigen tumour marker (Lu and Chang, 2011), the peak incidence **occurs** in childhood and predominantly in males.

B-cell lymphoma

The B-cell lymphomas are types of lymphoma affecting the lymph nodes. Lymphomas are "blood cancers" in the lymph nodes.
