To Authors This study on the evaluation of genetic admixture component for type 1 diabetes is very interesting. In the Abstract is correctly presented the aim and the development of the research. The Introduction shows the background of the topic. In the Methods there are the study project and the detailed characteristics of the study. The statistical analysis is correct. The results are believable and corresponding to the research. The Discussion develops the various sections of the topic. The References are up-to-date. In summary this is a good work.
