

INFORMED CONSENT STATEMENT

Name of journal: *World Journal of Clinical Cases*

Manuscript NO: 49988

Manuscript Type: RETROSPECTIVE STUDY

Predictors of rebleeding and in-hospital mortality in patients with nonvariceal upper digestive bleeding

Daniela Cornelia Lazăr¹, Sorin Ursoniu², Adrian Goldiș³

1. Department of Internal Medicine I, University Medical Clinic

2. Department of Public Health and Health Management

3. Department of Gastroenterology and Hepatology

University of Medicine and Pharmacy “Victor Babeș”, 300041 Timișoara, Timiș County, Romania

Informed consent statement: Patients were not required to give informed consent for the study because the analysis was retrospective, and it used anonymous clinical data that were obtained after each patient agreed to treatment by written consent.
