

Dear Editor,

Please find enclosed the revised manuscript in Word format (file name "Revised manuscript").

Title: Association of endometrioma with ovarian teratoma and mucinous cystadenoma in a patient diagnosed with endometriosis: A case report

Authors: Samaneh Rokhgireh MD, Abolfazl Mehdizadehkashi MD, Kobra Tahermanesh MD, Mansoureh Gorginzadeh MD

Name of Journal: World Journal of Obstetrics and Gynecology

ESPS Manuscript NO: 50784

Manuscript Type: Case report

Thank you very much for your kind e-mail, which gave us the possibility to revise our manuscript.

We revised the paper according to the reviewers' comments. We hope this revision will make our manuscript better to be accepted in your journal.

Each comment has been answered accordingly in the manuscript and each text that has been altered was highlighted yellow in the revised manuscript.

We hope that the revised version will fulfill the requirements for publication in the World Journal of Obstetrics and Gynecology.

Thank you very much.

Reply to Reviewers' comments:

"Overall interesting case report needs some improvements in the Introduction section. Very little information is given on endometriosis in general and particularly not on endometriosis and ovarian cancer. Some references such as

Kralickova et al., World J Clin Oncol. 2014 Dec 10; 5(5): 800–805, would be beneficial.”

Answer: We thank you for your invaluable comment. The introduction part is now extended as you requested. The aforementioned reference and another related reference are added to the manuscript. The changes are highlighted in the text.

Thank you for considering the review.

Sincerely yours,

Mansoureh Gorginzadeh MD,
