

# Language Assistant Certificate

This document is to certify that the article below has been edited by professional editors at AiMi (Scientific Editing Experts, United States. AiMi Academic Service, LLC) to ensure that the language is clear and free of errors. The intent of the author's message was not altered in anyway during the editing process. We guarantee the quality of our editing services, with the assumption that our suggested changes have been accepted and have not been further altered without the knowledge of our editors.

*Real life efficacy and safety of direct-acting antiviral therapy for treatment of hepatitis C-infected patients with genotypes 1, 2 and 3 in northwest China*
