SPECIFIC COMMENTS TO AUTHORS

Authors showed a case of IMTL and reviewed previous cases. This article is interesting, but several issues should be addressed. 1. Authors should describe or discuss the growing of the tumor. The tumor was appeared to be increased as shown in the first CT and follwoing MRI. Authors should show the duration between these examinations. 2. Authors should show the characteristics of the tumor (e.g. location, number, echo pattern, vascular pattern, T1 and T2 intensity) in a summarized Table.
