

## ANSWERING REVIEWERS

September 25, 2013

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 5148-revised manuscript.doc) and the editorial certificate provided by AJE (file name: 5148-editorial certificate)

**Title:** Malignant paraganglioma of the rectum: The first case report and a review of the literature

**Author:** Lin Yu, Jian Wang

**Name of Journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 5148

The manuscript has been improved according to the suggestions of reviewers and editors:

1 Format has been updated.

2 The core tip has been added (Page 2).

3 Revision has been made according to the suggestions of the reviewer.

(1) The abstract has been minorly revised, which included background, case presentation in summary and conclusion.

(2) Page 6: “Other tumors may enter into the differential diagnosis include.....”, has been revised to “Other tumors **that** may enter into the differential diagnosis include.....”

(3) Page 7: “there are increasing studies focusing on identifying molecular markers or biomarkers which can reliably predict malignant potential of paraganglioma. Several markers including telomerase, telomerase associated protein, heat shock protein 90, SNAIL and miR-483-5p, have been founded to be closely related to malignant potential of paraganglioma” has been revised to “**an increasing number of studies have focused on** identifying molecular markers or biomarkers that can reliably predict malignant potential of the paraganglioma. **Several markers, including** telomerase, telomerase associated protein, heat shock protein 90, SNAIL and miR-483-5p, **also have been found** to be closely related to the malignant potential of paraganglioma

4 References and typesetting were corrected.

The reference 1,2, 11 were from books, so there were not PMID and DOI.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Lin Yu, MD, Jian Wang, MD
