The manuscript "Rare adult jejunum lymphangioma manifested as gastrointestinal bleeding with hypogammaglobulinemia: A case report and literature review" has been read carefully and edited extensively by Ritchell van Dams, MD, MHS.

Dr. van Dams is a U.S. trained physician, with an educational background in American schools including Harvard University and the Yale University School of Medicine, with all scientific work including manuscripts, reviews, and book chapters having been published in his native English language.

A handwritten signature in black ink, appearing to read "Ritchell van Dams".
