### Laparoscopic umbilical trocar port site endometriosis: A case report

Ao X *et al.* Laparoscopic umbilical trocar port site endometriosis

Xue Ao, Wei Xiong, Shi-Qiao Tan

#### Abstract

##### BACKGROUND

Abdominal wall endometriosis can occur secondary to gynecological and obstetric pelvic laparotomy; however, this is a rare clinical event. There are few cases of endometriosis involving the incision site of a laparoscopic surgery, especially for those of the endometrial nodule at the umbilical trocar port site where the camera is placed.

##### CASE SUMMARY

We describe the case of a 37-year-old woman who presented with a 2-year history of

#### Match Overview
