Collision carcinoma of squamous cell carcinoma and small ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6354099>

Jan 26, 2019 · BACKGROUND. **Collision carcinoma** is rare in clinical practice, especially in the **head and neck** region. In this paper, we **report a case of squamous cell carcinoma** (SCC) and **neuroendocrine carcinoma** (NEC) colliding in the larynx and **review 12 cases of collision carcinoma** in the **head and neck** to further understand **collision carcinoma**, including its definition, diagnosis, and ...

Collision tumor of squamous cell carcinoma and neuroendocrine carcinoma in the head and neck: A case report

Wu SH *et al.* A case report of collision carcinoma

Shi-Hai Wu, Bao-Zhu Zhang, Ling Han

Abstract

BACKGROUND

There are many disputes about the definition, diagnosis, therapy, and prognosis of collision tumors.

CASE SUMMARY

We describe a rare patient with a collision tumor consisting of neuroendocrine carcinoma (NEC) and squamous cell carcinoma (SCC) in the nasal cavity and paranasal sinus. She received operation, concurrent chemoradiotherapy and then two cycles of palliative chemotherapy. Follow-up 12 mo after diagnosis showed that this patient experienced a complete response with no signs of recurrence or metastasis. A literature review of previous 26 cases diagnosed with collision tumor of NEC and SCC
