Cavernous Hemangioma of the Small Bowel: A Case Report ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6175268>

Cavernous **hemangioma** of the **small bowel** is a benign vascular lesion that can cause **chronic** GI bleeding presenting as **chronic** severe **anemia**. Clinical suspicion of bleeding originating from the **small bowel** is essential in the diagnosis of these lesions as they warrant a comprehensive workup.
