The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated. Text passages that were added have been highlighted.

2 Revision has been made according to the suggestions of the reviewer

Suggestions:

- (1) “...This was a well-written review article. Just some minor comments: 1. There are some spelling mistakes, e.g. "cientific papers" should be "scientific papers"; "orgains" should be "organs". 2. The number of reference was relatively small for a review paper. 3. Please consider to add a table summarizing the major abnormalities in different systems...”. The mistakes mentioned were corrected, the number of references was increased as required and a figure summarizing the major abnormalities was added.

(2)

a) *"...Please write a summary of less than 100 words to outline the most innovative and important arguments and core contents in your paper to attract readers..."*

The summary was prepared as suggested

b) *"...Please define it when the abbreviation is first appear. Please check over the context..."*

The abbreviations were reviewed

c) *"...Where is the forth reference? Please check over..."*

References were checked and revised

d) *"...Please add PubMed citation numbers and DOI citation to the reference list and list all authors. Please revise throughout..."*

The references were cited according to the request of reviewers.

Sincerely yours,
