## Endoscopic ultrasonography elastography in the diagnosis of intrapancreatic ectopic spleen: A case report

### Abstract

#### BACKGROUND

Intrapancreatic accessory spleens (IPAS) mimic pancreatic neoplasms on imaging studies, and due to the lack of radiological diagnostic criteria, patients undergo unnecessary distal pancreatectomies. Endoscopic ultrasonography

## Intrapancreatic accessory spleen: A case report and review ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC2655183>

Mar 07, 2009 · When an **accessory spleen** is located in the **pancreas**, it may mimic a **hypervascular pancreatic tumor**. Because an **accessory spleen** does not usually require **treatment**, accurate **preoperative diagnosis** is important. Here, we report an **intrapancreatic accessory spleen** and discuss its **differential diagnosis** and surgical management.

## Case Report: Intrapancreatic accessory spleen: a ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3604108>

Feb 05, 2013 · One must have a high degree of suspicion to think of an **intrapancreatic accessory spleen (IPAS)** and rely on **spleen-like** dynamic behaviour on **CT** or **MRI** in order to have certainty in the **diagnosis** and **obviate surgery**. In this case, the **diagnosis** was not considered unequivocal.

Feb 05, 2013 · **Intrapancreatic** accessory spleens are congenital malformations that occur in roughly 2% of individuals. Most of them are innocent until found. Lately, there have been a few **case** reports of **intrapancreatic spleen** misdiagnosis leading to unnecessary pancreatic surgery. We **report** the **case** of a 64-year-old woman who had a hypervascular pancreatic nodule diagnosed on dynamic CT and MRI ...
