### [Blocking and reversing hepatic fibrosis in patients with ...](https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4234899)

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4234899>

Background. **Hepatitis B** virus (HBV) infection is a major health problem worldwide with an estimated 350 million **chronic** carriers [], and carriers in China account for 33% of all **chronic** carriers globally [2, 3]. Although treatment of **chronic hepatitis B** (CHB) has dramatically improved over the past decade, **chronic** HBV infection is still the most common underlying cause of hepatocellular ...

Nov 10, 2014 · **Chronic hepatitis B** (CHB) can progress to cirrhosis, hepatocellular carcinoma (HCC) and ultimately **liver**-related death. Although oral antiviral therapy for **patients** with CHB reduces the risk of such complications, once cirrhosis is established, the benefits of antiviral therapy are not robustly demonstrated. According to traditional Chinese medicine (TCM), some Chinese herbal medicines ...
