Reducing gender disparities in post-total knee ... [翻译此页](#)

Cited by: 9

Author: Elizabeth R Volkman, John D FitzGerald

Publish Year: 2015

2015-2-7 · Gender disparities in total knee arthroplasty utilization may be due to differences in perceptions and expectations about total knee arthroplasty outcomes. This study evaluates the impact of a decision aid on perceptions about total knee arthroplasty and decision-making parameters among patients with knee osteoarthritis. Patients with moderate to severe knee osteoarthritis viewed a video ...
