

CERTIFICATION OF CONTINUING REVIEW  
OF COLLABORATIVE RESEARCH ACTIVITY

Title of Protocol or Collaborative Research Activity:

Follow-up of the Alpha-Tocopherol, Beta-Carotene Lung Cancer Prevention Study (ATBC Study)

Name of NIH Principle Investigator:

Demetrius Albanes, M.D.

Name of Collaborating Investigator:

Satu Männistö, Ph.D.

Name of Collaborating Institution(s):

National Institute for Health and Welfare

Single Project Assurance Number:

# S-5737-11

The Single Project Assurance document approved by the Office for Protection from Research Risks on 11/18/96 (date) requires that the Institutional Review Board **of the institution with which the SPA has been negotiated, i.e., the off-site non-NIH IRB**, conduct continuing review and approval of research at intervals appropriate to the degree of risk, but not less than once per year.

Accordingly, I hereby certify that this organization's Institutional Review Board reviewed and approved the continuation of the research collaboration named above on 15th August 2008 (date).

Signature of IRB Chairperson or  
Authorized Institutional Official

Arto Palmu
