**Efficacy of mesenchymal stem cells in the treatment of gastrointestinal malignancies**

Li JN *et al.* MSCs for gastrointestinal malignancies

Jian-Nan Li, Wei Li, Lan-Qing Cao, Ning Liu, Kai Zhang

### Abstract

Mesenchymal stem cells (MSCs), which are a kind of stem cell, possess an immune privileged nature, tumour homing features, and multi-lineage differentiation ability. MSCs have been studied in many fields, such as tissue engineering, nervous system diseases, and cancer treatment. In recent years,
