Re. Research Seed Grant application 2016

Dear Ger,

Congratulations on the successful reward of a research seed grant of €2,500 for the study "*Biomarkers for cognitive recovery in elderly medical inpatients*"

I will be in contact shortly with a view to arranging the payment of the grant.

The Foundation wishes you every success with your study and we hope that you will present a poster of your project for the Annual Multidisciplinary Research Conference when you have completed the study.

Yours sincerely,

Mette Jensen Kavanagh
Executive Officer
