SPECIFIC COMMENTS TO AUTHORS

1. There are some grammatical or spelling mistakes. Such as “There are numerous murine models of IBD, which include, for example, the use of dextran sodium sulfate...”; “DDS colitis”; “changes in in the integrity of”. 2. The full names of abbreviations should be given when they were appeared first time in the text. Then it is better that the abbreviation was used in the following section instead of the abbreviation mix with the full name. 3. If the passage “Other animal models have been used to investigate the relationship between ...although not entirely specific to IBD.” should move to section 3.3?
