

November 8th, 2013

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 5403)

Title: Acute Cytomegalovirus infection in liver transplant recipients: an independent risk for venous thromboembolism.

Author: Raja GR Edula

Co-Authors: Kamran Qureshi and Hicham Khallafi

Name of Journal: *World Journal of Hepatology*

ESPS Manuscript NO: 5403

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

- A. Title has been changed as requested.
- B. Figure with CMV has been updated. This was provided by pathology department at Florida hospital and interpreted by experienced pathologist.
- C. Changes made to the manuscript and incorporated most of the suggestions by the reviewer. We had no reason to suspect portal vein thrombosis in this patient and did not pursue any further tests. The donor liver was CMV negative and this has been incorporated.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Hepatology*

Sincerely yours,

Raja GR Edula MD, MRCP (UK)
