

## Responses to the Editor

World Journal of Clinical Cases

Manuscript NO.: 54153

June 10

Dear Editor,

Thank you for all of your efforts concerning our manuscript entitled, “A Case Report: Dental Focal Infection-induced Ventricular Spinal Canal Empyema” (Manuscript NO.: 54153 ). We are truly grateful for your thoughtful comments and suggestions. We feel lucky that our manuscript proceeded to the editor because the valuable comments not only helped us to improve our manuscript but also provided good ideas for future studies. Based on these comments and suggestions, we have made careful modifications to the original manuscript. We hope that the new manuscript will meet your magazine’s standards. Below, you will find our point-by-point responses to the comments/questions of the editor.

Replies to Editor:

**1.I found the authors did not provide the original figures. Please provide the original figure documents. Please prepare and arrange the figures using PowerPoint to ensure that all graphs or arrows or text portions can be reprocessed by the editor**

Thanks for your comments on our paper. We have provided the original pictures in the form of PowerPoint.

**2.I found the authors did not add the PMID and DOI in the reference list. Please provide the PubMed numbers and DOI citation numbers to the reference list and list all authors of the references.**

Thank you for your useful suggestions. We have provided the PubMed numbers and DOI citation numbers to the reference list and list all authors of the references. However, we did not find the DOI citation numbers of the twelfth reference after searching.

Once again, thank you very much for your support of our efforts. I would like to thank the editors for their constructive help.

We are looking forward to hearing your decision, and we hope that the manuscript will be accepted for publication in World Journal of Clinical Cases.

Best regards,  
Yours sincerely,  
Hang Xue
