#### **SPECIFIC COMMENTS TO AUTHORS**

The technical details of the molecular analysis should be written in more detail. Microscopic images should be added, which reveal differences in maspin expression, especially in the tumor core and tumor invasion front. English spelling contains some errors.

#### **SPECIFIC COMMENTS TO AUTHORS**

This is a very comprehensive study about the correlation between TP53 mutation and expression of Maspin. The figures indicating the expression of Maspin such as immunostaining or immunoblotting of Maspin, or RT-PCR detection may be added. In figure 4, the difference between TN stage 2 and 3 may be explained in detail.
