Subject: Language editing certificate

Dear Editor in Chief,

I am involved in the Biomedical research field for the last 35 years and worked in the different Institutes of the world in different capacities. I have gone through the manuscript entitled “*dupA* of *Helicobacter pylori* as an important risk determinant for disease manifestation: An overview” extensively.

I have edited this review article comprehensively and checked the manuscript for proper grammar and spelling and the correct usage of articles, prepositions, conjunctions, abbreviations, punctuation, italic font of Latin words, biomedical terms, tenses, active voice and passive voice, and sentence structure.

Now I firmly believe that the revised edited article meets the BPG publishing requirements (grade A).

Thanking you

Sincerely,

Dr. T. Ramamurthy, Ph.D., FNA, FNSc
The Indian National Science Academy-Senior Scientist
Fellow of the American Academy of Microbiology, USA

Formerly:

National Chair, Translational Health Science and Technology Institute, Department of Biotechnology, Faridabad
