Endoscopy in patients on antiplatelet or anticoagulant ...

<https://gut.bmj.com/content/65/3/374> ▾

Mar 01, 2016 · The risk of **endoscopy** in patients on antithrombotics depends on the risks of procedural haemorrhage versus thrombosis due to discontinuation of **therapy**. P2Y12 receptor antagonists (clopidogrel, prasugrel, ticagrelor) For low-risk **endoscopic** procedures we recommend continuing P2Y12 receptor antagonists as single or dual **antiplatelet therapy** (low quality evidence, strong ...

Anticoagulant

Chemical Substance

Anticoagulants, commonly known as blood thinners, are chemical substances that prevent or reduce coagulation of blood, prolonging the clotting time. Some of them occur naturally in blood-eating animals such as leeches and mosquitoes, where they he... +
