SPECIFIC COMMENTS TO AUTHORS

In the manuscript, the authors need to clarify that guideline or practice described in the manuscript is to prevent the transmission of the coronavirus to healthcare workers and other patients, such as in the abstract and in the introduction. The authors need to state in the manuscript the following items: 1) the entities or persons who approved the guideline, such as the chief of clinical service, and the chief of the hospital; 2) the date that the guideline was implemented; 3) the hospitals that used the guideline, and 4) the metrics used to evaluate the effectiveness of the prevention program. The authors should report in the manuscript the number of patients processed with the guideline, and their outcomes based on the algorithm in the figure. The authors can comment whether N95 mask was needed for the endoscopist when vacuum aspiration was used during the endoscopy. The authors should provide the internet address for references 11 through 16. The authors should review the use of words in the manuscript, such as susceptible (vulnerable) and security (safety).
